

THOUSANDS OF KIDDIES IN BIG SCHOOL PARADE HONOR EDISON AT FAIR

Inventor's Eyes Moistened as
Cheering Throngs of Chil-
dren March Past Him.

SAN FRANCISCO, Oct. 26.—Thomas A. Edison received the most remarkable ovation that ever came to him when the children of this city, cheering and singing, marched past him as he stood in the Court of the Universe in the Exposition.

"This is tremendous," he whispered to those who stood near him, and when it was all over he said, moisture in his eyes.

"This is the biggest thing that ever happened to me."

Sixty thousand persons, most of them children, crowded past the bandstand in the Court as Edison bowed and waved his hands. From time to time he left the front of the stand to appear at the opening on the side so that the children

might be able to see him and have a chance to see him too and wave and be waved at.

Once as the children marched past they sang, led by Miss Estelle Carpenter and a band, "The Star Spangled Banner" and "America." Edison threw out his arms to the children and then caught Miss Carpenter's hand as she walked along and kissed it.

Behind the inventor stood Mrs. Edison holding the flowers the children had given to her. She, too, was affected, and she said:

"I never appreciated what it was to be Mrs. Edison until I came to California."

\$750 FOR REVELL NURSE.

A sealed verdict for \$750 against Mrs. Marion Revell of No. 250 West One Hundred and Fourth street, wife of Fleming H. Revell Jr., son of a publisher, was opened by Justice Deven-

port in the Supreme Court yesterday. Mrs. Revell had been sued by Miss Dolis Cronin, a tutor, who asserted her employer had struck and kicked her and tore out her hair.

Mrs. Revell's story was that she had pushed the nurse out of a room, fearing Miss Cronin might harm her baby. M. M. Meyer, Jr., the defense said he would accept John J. Kirby as counsel for the plaintiff.

CHILD GETS SICK
CROSS, FEVERISH
IF CONSTIPATED

Look at tongue! Then give
fruit laxative for stom-
ach, liver, bowels.

"California Syrup of Figs"
can't harm children and
they love it.

A laxative today saves a sick child tomorrow. Children simply will not take the time from play to empty their bowels, which become clogged up with waste, liver gets sluggish; stomach sour.

Look at the tongue, mother! If coated, or your child is listless, cross, feverish, breath bad, restless, doesn't eat heartily, full of cold or has sore throat or any other children's ailment, give a teaspoonful of "California Syrup of Figs," then don't worry, because it is perfectly harmless, and in a few hours all this constipation poison, sour bile and fermenting waste will gently move out of the bowels, and you have a well, playful child again. A thorough "inside cleaning" is oftentimes all that is necessary. It should be the first treatment given in any sickness.

Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Look carefully and see that it is made by the "California Fig Syrup Company."—Adv.

HOME GYMNASIUM FOR WOMEN

To Preserve Health, Strength
and Figure

BY PAULINE FURLONG

No. 40.—FACIAL MASSAGE.

Massage is an ancient custom which has been practiced in this and many other countries for centuries. The word massage means to knead and it will either reduce or develop the parts to which it is applied, inconsistent as this may seem. It is the method of application which produces the desired results.

Hard, firm strokes cause the parts to waste by destroying the fatty cells of which the tissues are composed while easy, gentle pressure builds up the tiny cells and causes gradual development by stimulating and promoting the circulation and the blood supply to the wasted parts.

Remember that if your health is poor your complexion will be also, and without either health or beauty you will be the most miserable creature on earth. Never give up the battle for health, if you are desirous of attaining good looks, and do not think that filling the body with drugs and smearing the face with all sorts of so-called beauty preparations that you will improve your appearance.

Only by a systematic course of proper and simple living, fresh air and outdoor exercises, internal and external cleanliness and rest, together with careful cleansing and general care of the complexion, can you hope to attain and keep a healthy, youthful appearance and a clear skin, free from all sorts of disfiguring blemishes.

There is no more need for a woman to have wrinkles on her face than on any other part of her body, and their presence can only be explained through ignorance of the proper methods to pursue to eradicate them. Wrinkles show a starved condition of the skin and lack of oil, and no soap should be used to cleanse the face which is dry and lined. Use a good cleansing cream instead. Rub it into the skin gently and then apply a wholesome tissue builder and proceed with the massage, following the movements I shall describe below.

THE MASSAGE.

Begin to massage the face by the tips of the ears in small circles and work upward to pull up the sagging jaw. Next slide the fingers up to the temples beside the eyes to banish the dreaded crow's feet. Continue to move the fingers in small circles up to the forehead, over the eyes and work along the forehead to remove the lines there. Between the eyes use the oval motion with the long finger of each hand and work contrary to the lines. Next go completely around the eyes, very gently, from the inner corners outward. This removes the fine lines around the eyes. Next the nose in firm, downward strokes. One side at a time. The cheek muscles are next, and here use the heavy clawing stroke, with the fingers of both hands, pointing downward, and work from the corners of the mouth upward over the cheek bones.

In the past series I told you how to massage and treat the double chin and neck and these should always follow the facial massage, in order to keep them firm, white, shapely and free from lines and other blemishes.

If the skin is not dry, and wrinkled, start the facial treatments by applying hot wet towels to the face to open the pores for at least five minutes before using the cleansing cream. Then proceed as described above. After the hand massage, wipe away all traces of the tissue builder with a soft cheesecloth and dash cold water on the skin to harden the flesh and close the pores. Never massage the face bare, going into the street, as it causes the skin to chap and become dry and wrinkled.

To-morrow's article will explain the cause of the wrinkles and how they may be banished.

Letters From Evening World
Readers Following Miss
Furlong's Lessons.

MRS. E. W. K. (Cleveland) writes: "Please advise me of a good, safe remedy for acidity and constipation. Is milk of magnesia good for these troubles?"

Proper foods and exercises will speedily overcome acidity and constipation. Avoid white breads, hot rolls, sweets, much meat, etc. Copious water drinking, fruit, green vegetables and salads are best for you to eat. Practice trunk raising and the liver squeeze exercises. Walk much and breathe deeply. Yes, milk of magnesia is effective but not at all necessary.

JACK T. (Pittsburgh) asks: "Please tell me if eczema is contagious and also how to treat it."

Eczema is not contagious. To overcome it, do not allow constipation to exist. Drink much water and eat very light foods—vegetables and fruits. Several days' fast is also advised. Fresh air, exercise and cheerful condition of the mind are essential also.

MRS. J. H. asks: "How can I avoid overeating? I have an enormous appetite and always feel a desire for food. I know I am weak not to overcome this habit. I am so anxious to lose weight."

Learn to chew and taste thoroughly every morsel of food you take. Do not drink with meals. You will soon find that you can get along on much less food.

MRS. BETSY L. (Salt Lake) asks: "Do you advocate vapor baths for rheumatism? Are sweets to be avoided when this condition exists?"

Yes, vapor baths will help cure rheumatism. Sweets, starches and meats should be avoided. Take lots of water, lemon water and buttermilk between meals. An absolute fast from food, with copious water drinking, will cure rheumatism within a few weeks.

MRS. GERTRUDE H. (Denver) asks: "Will you please publish a diet for obesity?"

This has been published several times. Send five cents to me and repeat your question.

J. H. N. (a man) writes: "What is

CONTRASTING FACIAL MASSAGE

cantharides and why is it used in so many hair tonics?"

Cantharides is a powerful stimulant and for this reason is used in a great many hair tonics. It should be used

Readers of Miss Furlong's article are invited to write to her, in care of The Evening World, requesting information that will aid them in following her illustrated lessons.

much diluted and is best for the dry, tight scalp. All hair tonics should be applied to the scalp and not to the hair. Use a very narrow toothbrush and brush scalp vigorously along small parts in the hair. One tablespoonful of tonic is enough for each treatment. Use the finger massage, after applying the tonic to loosen the scalp and promote the circulation. No, do not brush the oily scalp and hair, as this condition shows that the scalp is already over-stimulated.

EDITH M. asks: "I am 5 feet tall and seventeen. What should I weigh and how can I grow taller?"

You should weigh about 100 pounds. You have seven years more to grow. Fresh outdoor exercises will increase your height and health also.

MRS. L. M. (Cleveland) writes: "I am 5 feet 3 inches tall and weigh 100 pounds. I noticed one of your articles very recently in the paper and now I am practicing the exercises as best I can. Will you tell me if you have published a diet? I want to follow it and try to lose flesh. I try to touch the floor without bending my knees, but cannot possibly do so. I eat gluten bread and fruit in the morning. Will butter on the bread make me fat? For dinner I eat more gluten bread and some vegetable salad with vinegar. Is this too much? I do not eat dessert. I am so stiff and sore that I can hardly move, especially behind my knees. Do you think this is caused by varicose veins? I am so anxious to become normal and thinner."

You should weigh about 125. The diet was published on Sept. 27. It is

not right. You may eat all green vegetables, all meats but pork, all shell fish and most other kinds. Butter is forbidden. You may take all fruits except bananas and grapes, which are fattening. The stiffness behind the knees comes from trying to touch the floor without bending them. Be very careful not to overdo the exercises and stretch the muscles. You can master this later.

SAYS WIFE IS BIGANIST;
IS ARRESTED WITH HER

Mrs. Beller Admits Having Previous
Husband, but Alleges Second
Made Her Wed Him.

Patrolmen Downes and Wadsworth were at Pacific Street and Third Avenue in Brooklyn last night when they saw a man point what looked like a revolver at a woman. Downes jumped on the man and found that the revolver was a glass one.

"Wait a minute, officer," said the man. "I'm placing this woman under arrest. She's my wife and she married me when she had another husband living."

The police arrested the man, who said he was Charles Beller, a clerk of the Hotel Knickerbocker, Manhattan, living at No. 284 Pacific Street, Brooklyn, and his wife, Gertrude, twenty-four, living at No. 694 President Street. At the police station Mrs. Beller admitted she had a husband, William Walsh, living in Brooklyn. She said she married Beller because he threatened her.

She was looked up on a charge of bigamy and he was looked up charged with assault, as Patrolman Downes said he saw Beller strike his wife.
